Walworth County

ELKHORN

Country Seat News.
MRS. GRANT HARRINGTON,
Tele. 105.

Elkhorn—Circuit court was in session Monday forenoon, Judge S. B. Elden, presiding. The time was mostly devoted to naturalization matters. Thirty-six cases were heard. Twenty-six were granted citizenship papers. The balance were put over for different reasons. The jury was dismissed and court adjourned to Wednesday morning when the personal injury claim of Rose Green against the Southern Wisconsin Electric Co., will be heard. This will be followed by George L. Reed vs. Lola M. Wright. The Walworth Condensed Milk Co. case was set for March 5 and the matter of the state against Josiah Barfield for embezzlement went over the term. Most of the other cases also went over the term although there is a chance that some of them may be tried the latter part of the week.

Reporter Breaks Arm
Chas. W. Welch, court reporter for this circuit for the last 40 years, fell and broke his arm last Saturday. Miss Sprague, from the county court, filled his place in court Monday.

Indorse Ridgway Bill
The Kiwanis club entertained the county ministerial association members at Monday's luncheon. Rev. Mr. Durnea gave an instructive talk on the Mohammedan situation. The club adopted a resolution endorsing the Ridgway bill for the regulation of dance halls.

Mr. and Mrs. Hal Wylie have the men and women of the D. B. P. club for 6:30 o'clock dinner. Tuesday evening an evening of cards. William White, who recently sold his residence to Will Mitchell, has rented the Prisk house on North Wisconsin street and will take possession on March 1.

The girls' club of the Catholic church will be entertained by Mrs. Hugh Squires and Miss Winifred Carban at the latter's home Tuesday night.

C. W. Forbes was one of the pallbearers at the funeral of Mrs. Emily Charles in Lake Geneva, Sunday. She was 76 years of age and had lived in the county practically all her life. She was a school teacher in an early day and for a time taught in the Forbes district in Bloomfield.

A daughter was born Monday to Mr. and Mrs. Paul Zabel. Miss Mabel Rosenbauer entertained St. Mary's Guild Monday night on account of the illness of Mrs. Wallace O'Brien, who was to have the Kaklar club.

The local long distance telephone company will hold its stockholders meeting in Columbus hall, at 10 a. m. Wednesday.

The baby clinic in Elkhorn, Friday revealed eight normal babies and 15 with normal weight out of 27 examined. Eight were under weight, seven had bad tonsils, three poor lungs and numerous other defects.

An Old-Time Jail
Walworth county's first jail was a log structure located on a lot north of the court house. It is said that prisoners who were incarcerated therein afterwards frequently "arrived up town ahead of the sheriff." Criminals were sent to Janesville for safe-keeping. In 1852 the question of a new jail was considered and the commissioners offered \$40 to the person who would furnish the "best plans for a jail and sheriff's residence." Bradley was the successful contestant. Bids were called for according to the Bradley plans and Lee & Black were awarded the contract for \$4,000. The contract stipulated that the cell walls, ceiling and floor be built of two thicknesses of 2-inch plank and the walls to be reinforced with iron rods. The building was finished, however, the roof was so defective that the jail could not be used. The old roof was replaced with a new one and the contractors were assessed \$116 damages. The location of the jail was changed to a lot northwest of the park, for the reason that the old site "was so low and marshy that a good foundation could not be built." The old site, lot 7, block 16 and 40 were traded for a new one. In 1855 one Bradley, John, charged with murder, and Wm. O'Brien, accused of a serious offense made their escape from the jail by cutting a hole in the floor and digging out under the wall. Thereupon the old floor was removed and the space filled with "grout." The prisoners were never recaptured.

Persons
Mrs. John McLean was in Racine, Monday.
Mrs. John Barron and daughter, Catherine, Milwaukee, came Monday to visit friends.

Webster Smith was in East Troy, Monday and attended the O'Connor stock sale. Wiswell and Miss Olive Michaels visited Milwaukee, Sunday.

Miss Elsie Holcombe, Rockford, was home over the week end.

Mrs. Will Dobbett was taken to St. Mary's hospital, Milwaukee, Monday.

Benjamin A. Wynn, Walworth, has come to Elkhorn and gone to work for Frank Holton & Co.

Miss Carol Smith, was home over Sunday, returning to Milwaukee, Tuesday.

PALMYRA

Palmyra—Miss Mabel Cumming is visiting relatives at Ottaway for a few days.

A. E. Jaquith and daughter were Milwaukee visitors Tuesday.

Bert Ramson was called Saturday from Green Bay on account of the serious illness of his sister, Mrs. D. B. Marsh. Mrs. Marsh died Sunday and the funeral was held at the home at 1:30 p. m. Tuesday and at the St. E. church at 2 o'clock the Rev. Mr. Knutzen officiating. She is survived by her husband; two daughters, Mrs. B. Skert of Wauchesa and Ora, of this village; one son, Dick; and Bert Ramson, her brother.

Mr. and Mrs. Lawrence Huesten, East Troy, were Sunday guests at the home of J. J. Breidenbach.

George Boyer started Monday on his return to his home at Philadelphia, Pa.

D. J. Williams, Burlington, was a caller in the village Saturday.

Mr. and Mrs. Charles Thayer, entertained fifty-six neighbors and friends at their home Saturday evening.

Mr. and Mrs. C. M. Miles motored to Milwaukee Sunday to spend the day with relatives.

Miss Myrtle Foele, night telephone operator, is ill at her home. Miss Frances Sadenwasser is taking her place in the office.

Mr. Arthur Silvernail and son are visiting relatives in Madison for a few days.

WHITEWATER

MISS ALICE MARSH,
Phone 232-11.

Whitewater—Prof. H. G. Lee and family will move April 1 from Bond Street to North Franklin street. Prof. Lee having purchased the home of Mayor Wakefield St. Mr. and Mrs. Shock and daughter, Catherine, will rent a house temporarily. Messrs. And Mrs. P. H. Barker and R. K. Goe motored to Milwaukee Saturday to attend "Thank U."

Mr. and Mrs. A. E. Hansen and son went to Elkhorn Sunday. Miss Muriel Praxley visited Mrs. Charles Turner, Palmyra, Friday. She returned Saturday.

Mrs. Wakefield Shock has returned from the east where she was called by the death of a relative.

Francis Trait, Harvey McGraw and Donald West arrived here from Madison Saturday to spend the week-end at the Trait home.

Roger Bla entertained at a dinner Saturday night, celebrating his birthday. The guests were the Misses Thea and Marion Fulton, Marjorie and Louise Keith and Mildred Yoder, Arthur Lentz, Russell Hansen, Frederick Knigans, Wescott Patton and Lawrence Cox.

George Hutchinson, Peabody, Mass., is visiting his sister, Mrs. W. R. Shock.

Miss Gladys Wheaton, who teaches in Elkhorn, was the week-end guest of Miss Gene Kennedy.

Bert Green was in Chicago Sunday and Monday.

Head of George Roseman are recovering from the grip.

U. W. Delegation Goes to Delavan Next Week-End

Delavan—Delavan next week-end will entertain a delegation team from the University of Wisconsin as the result of arrangements made by the Local Union of the Baptist church, George Grossman, president, and the Christian Endeavor society of the Congregational church, Newton Hales, president.

The delegation team is composed of E. H. Gibson, half back last year on the varsity eleven; Merle Ryden, law school student; Calvert Dedrick, head of all divisions teams last year; Miss Mildred Thomas, senior in the Arts college and Mrs. Florence Buller of the extension department.

The team will come here Friday for the week-end. The program will include a supper at 6:30 Friday for all young people, at the Baptist church, followed by father and son, and mother and daughter mixers. The former at the church and the latter at the Charles Barker home.

A special chapel service will be held Saturday morning at the state school. At noon a luncheon conference of the team and cabinets of the two young people's societies will be held at Stoll's restaurant, Delavan. Games will be played at the community house, Elkhorn, in the afternoon. Supper in the evening will be served at the Baptist church.

On Sunday morning, the delegation team members will speak in Congregational and Baptist churches and a social hour will be held at 5:30 p. m. at the Congregational church, followed by a devotional hour at 6:30. The climax service following will be held at the Baptist church afterwards.

SHARON

Sharon—Chris Heider died Sunday afternoon after a week's illness of pneumonia. His wife is very ill with the same malady. He leaves four daughters, Mrs. Edna Fenness, Chicago, Mrs. J. P. Piper, Mrs. Paul Walters and Mrs. Herman Walters, all of Sharon. Funeral arrangements have not been made.

This village was saddened Saturday when word came of the death of Miss Irma Marie Sahli, Whitewater, who died at Waterford where she was teaching. Miss Sahli came here after graduating from the Whitewater Normal, taught in the high school for eight years. Three years ago she went to Waterford to teach. The funeral was held at that place Monday and burial took place at Mt. Hope.

Paul Mereness, son of Mrs. W. C. Salisbury and Gladys Weldimer, oldest daughter of Mr. and Mrs. W. C. Salisbury, were married Saturday at Albany, by the Rev. G. M. King. The double ring ceremony was used. They returned home that afternoon and went at once to the groom's farm north of town.

The Junior League held a Valentine social Saturday at the Methodist church. A large number were present, a Valentine box enjoyed and refreshments served.

The members of the 7th grade held a party Saturday night at the home of Miss Lorraine Sawyer. The room was decorated in honor of Valentine's day, games were played and supper served.

The Rev. William Hooten, Delavan, preached Sunday at both services at the M. E. church for the Rev. B. C. Polter who was ill.

Miss Beryl Rossmar, Beloit, spent Saturday with her grandmother, Mrs. J. Finn and other relatives.

Mr. and Mrs. W. C. Salisbury entertained at dinner Sunday in honor of her son, Paul Mereness and wife. Those present were Mr. and Mrs. Paul Mereness, Mr. and Mrs. Ivan Peters, Mr. and Mrs. Jack Tuft and son Donald, Beloit.

SELLING CHEAP COAL

Some home owners have heating plants fitted to burn very cheap soft coals. For these we have "Snow-bird"—the best of the cheap coals. Call 2900. Special prices in car lots. Brittingham & Hixon.

Grippe

Physicians advise keeping the bowels open as a safeguard against Grippe or Influenza.

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus secures regular bowel movements by Nature's own method—lubrication.

Nujol is a "lubricant—not a medicine or a cathartic." It cannot grip. Try it today.

Nujol
A LUBRICANT—NOT A CATHARTIC

pany to make the building of homes more
easily accomplished.
Additional room in the post office by building an
annex.
Arranging a road building program so that the
farmer and taxpayer, will be the greatest
beneficiary.
Traffic regulations that will reduce reckless
driving and the number of deaths from auto
accidents.

THE ATTACK ON THE UNIVERSITY.

The University of Wisconsin is fighting for its
educational life. It has in this United States a
reputation as an educational institution high
among the greatest of the leaders. Its fame is far
reaching and it is known in China and Japan and
the Antipodes. It has been operated as an educa-
tional institution and not as a plaything of politics
or a political asylum. Now it is attacked by
politicians who want control. It is to lose its educa-
tional greatness if that program is carried out
and be the state's political pawn. The legislature
has in it a large number of men who do not think
much of the University and the administration as
now constituted has a less opinion of it. They
have one cry—to make it more democratic in ad-
ministration. The regents are to be abolished and
a small board of education is to care for its fu-
ture. The very object belies the purpose as stated.
Instead of being "more democratic" with the
large board of regents, it will be easily and au-
tocratically controlled by a few persons chosen by
a governor who has no friendship for the present
University heads. These men and women are
generally believers in the United States. They are
opposed to the Kate O'Hare, et al. They are
educators and not propagandists of parlor bolshie-
vism or philosophical anarchy.

But the real purpose behind all these attacks on
the university is to "liberalize" it to put it in the
socialist class even though that policy takes it out
of the educational institutions and it becomes on-
ly the home of fads and theories and isms.

That is the real issue in the fight against the
university. It aims to educate soundly and hon-
estly instead of going into quackery, but that
does not suit the legislature.

Finances and budgets and expenses of the uni-
versity are matters within the purview of the
legislative bodies. Into all these the legislature
has the undoubted constitutional and statutory
right to delve as deeply as it may see fit. It can
throttle here and there, or expand here and there.
It may and does pass upon appropriations for new
buildings and extensions. But when it comes to
emasculating the university's educational func-
tions and enters upon the domain of its curri-
culum and its personal direction and governmental
supervision, it hits deep water and above its head.

The university would soon be the creature of hobb-
ies and the butt of ridicule instead of continuing
as one of the foremost educational institutions of
the nation.

Nothing could be more criminally disastrous
than to inject partisan and factional politics into
the university. And to place it under a political
board of small membership is to reduce its control
from a representative democracy to a narrow and
dangerous autocracy.

So far everything in the state has been regulated
by a bill in the legislature except the size of the
helpings at restaurants.

KING TUT A YOUTH IN COMPARISON

Anyone might think that the present discovery
of the remains of King Tut was the first we have
made of the old kings in Egypt. But that is not
so, since discoveries far more valuable in Egyptol-
ogy have added to our knowledge of ancient his-
tory and the archeological wealth of many mu-
seum collections. Many mummies of older kings,
including that of Ramesses the Great, have long
since been taken from tombs and wealth far be-
yond that found in the tomb of Tutankhamun was
recovered from the burial place of the princesses
of the twelfth dynasty in 1894. But the latest dis-
coveries with better press agents have received
greater publicity and a larger and broader popu-
lar attention which may stimulate the reading
of history and a better understanding of the be-
ginnings of civilization. As it is King Tut was
comparatively a youth so far as Egyptian history
goes.

Maybe the governor won't care if they all leave
the state just so long as they let Boacabel and the
legislature remain.

Mr. Coue suggests that Chicago substitute "I
am" for "I will" as a slogan. One may well dis-
agree with the French druggist. Had Chicago
been satisfied with "I am" there would be the
same mudhole which made up most of the land-
scape there in 1830. It would have sat down like
Marius in the ruins of Carthage, after the fire in
1871 and let the ruins continue to be ruins. We
do not think that Mr. Coue has the viewpoint of
America at all. "I am" is the watchword of the

THE DEMAND FOR BIBLES

By FREDERICK J. HASKIN

Washington—Printing presses have been run-
ning overtime ever since the close of the World
war. One explanation of this extraordinary ac-
tivity will occur readily enough to everyone—the
presses have had to be busy to turn out the tre-
mendous volume of paper money required in Ger-
many, Russia and the other countries with sud-
denly depreciated currency. Another explanation that
is nearer the real one would be the last one to
suggest itself to the average person—the unprece-
dented demand for copies of the bible.

This demand comes from every country in the
world, with China at the head of the list. Last
year approximately 30,000,000 bibles were dis-
tributed among the spiritually hungry of all lands
and climes, and this year it is expected that the
distribution will far exceed that figure.

One organization alone, the American Bible
society, has plans that contemplate the distribu-
tion of at least 5,000,000 and possibly 6,000,000
copies, and its officials say that even at that they
cannot meet the demand that will be made upon
them. Recently the society placed the
largest single order for Bibles known in the his-
tory of the book—an order for 3,000,000 copies of
six separate books of the scriptures.

These tiny volumes will be turned out on huge
rotary presses at the rate of 10,000 copies an hour.
It is a far cry from production of that sort back
to the days of Gutenberg when the printing of the
first bible, called the Mainz bible, from 1450 to
1460, took about five years. It was a movable
type, but it was not the movable type of today.
The demand for Bibles is so great that it is
a fact that the book first to be printed has always
been the one most greatly in demand. No book has
ever reached so many millions nor had so great an
influence on the world. It stands pre-eminently
the Book of the Ages.

And yet with a distribution of 30,000,000 cop-
ies in a single year there are not enough to fur-
nish a copy for every man, woman and child in
the world in twelve months, while it all the
Bibles that have been printed since the days of
Gutenberg had been preserved and could be as-
sembled the total would not suffice to provide a
copy for every man, woman and child in the world.

It is not generally known that the bible is now
published in 770 different languages and dialects,
and that the work of putting it into still more
strange tongues is being rushed by committees
of clerics in all parts of the world. The work
of preparing translations for foreign countries is
done with the utmost care and by the best schol-
ars obtainable for the task in hand. It is never
done by one man, but by a committee, the idea
being that discussions of mooted questions of
meanings would eliminate many of the possi-
bilities of vagueness in the translation. Each man
takes up a portion of the bible and translates
it, and then in council the group of men go over
the work of all.

Many problems arise in this work because words
used in the original meanings of the bible are
not to be found in all the 770 languages and dia-
lects into which the Word has been translated. For
example, take the Eskimo language. The an-
cient Hebrews were a pastoral people and bib-
lical references to sheep, lambs, goats and such
animals are frequent whereas the Eskimos dwell
among the eternal snows, were familiar
only with polar bears, reindeer, walrus and
seals, but had never seen nor heard of sheep or
lambs and had no words for them in their lan-
guage, nor any word that would convey the mean-
ing of the word date, or olive, or many other
things mentioned in the bible.

In the circumstances, consider the difficulties of
the translators when called upon to change into
Eskimo the twenty-ninth verse of the first chap-
ter of St. John, which reads:

"The next day John saith Jesus coming unto
him, and saith, Behold the Lamb of God, which
taketh away the sins of the world!"

A prolonged debate ensued as to what word
might be used for Lamb, which was not in the
Eskimo tongue, and it was finally decided that the
nearest word to it was "baby seal," so that the
Eskimo text, when rendered back into English,
actually reads, "Behold the Baby Seal, or God,
which taketh away the sins of the world!"

Many revisions of the old translations have been
made within the last year, to the end that the in-
fluence of the bible may be even stronger in coun-
tries where its teachings have been studied for
centuries. Thus a committee of scholars under the
editorship of the Rev. Henry C. Thomson, com-
pleted the revision of the Spanish new testam-
ent and the Portuguese bible is undergoing the
same study.

Even the Zulus, traditionally wild and savage,
have made such progress with the bible that the
first translation made for them is being revised.

Almost half of the bible distributed by the Amer-
ican Bible society during the last two years have
gone into China. In 1921 the Chinese took more
than 2,300,000 volumes, an increase of over 600,000
as compared with the preceding year, and in-
complete returns on the distribution for 1922 in-
dicate that the total for China will be much higher
than the year before.

Although the Chinese is one of the most intri-
cate and varied of all the great languages of the
world, scholars have translated the bible into more
than 25 dialects of that tongue. This involved long
and arduous study of the colloquialisms of the
various sections of the country, debate over intri-
cate shades of meaning, and finally the long pro-
cess of printing and distribution.

In China large parts of the scriptures have been
issued in phonetic script for distribution among
the illiterate, the aged and the children. The use
of the phonetic script is fostered by the govern-
ment there, and it is used in the government
schools. For Japan, the bible is published in
about 16 dialects for the native Japanese and
for those who have gone into that country from
other lands.

Not only is the bible being made available for
people of all languages and dialects, but the needs
of those who can not see and consider and sup-
ply, and bibles for the blind are printed in 12
different systems. For those persons who learned
to read under the old Moon system for the blind,
the Society imports from England a set of
58 tones costing \$257. But the price to the blind
man is not that prohibitive figure. He pays one
dollar for each volume, and the rest is paid out of
the funds of the society, in the belief that few
blind men would be able to read the bible if they
had to pay the full price.

The latest of the Bibles for the blind is issued
in Braille and consists of two volumes, which weigh
about 150 pounds and all a 17-foot shelf.

Main street wester whose wife takes in washing
to support him.

You can tell the politician by the way he hangs
around hoping to be appointed to an office after
being defeated at the polls.

Having passed its fiftieth milestone, the Wis-
consin Rapids Tribune celebrated its half century,
Feb. 3. In the winter of 1873 the city of Grand
Rapids was noted for its lumber mills and the
timber operations centered there. As Grand Rapids
it played its part as a city in the early history
of the state. The Tribune which has been changed
to a daily for some years is an excellent paper
under the management of W. H. Huffman and
like all papers that succeed shows constant im-
provement.

Auto manufacturers are opposed to the use of
the term "pleasure car." After the state gets
through taxing 'em they won't be bothered so
much with pleasure.

Auto manufacturers are opposed to the use of
the term "pleasure car." After the state gets
through taxing 'em they won't be bothered so
much with pleasure.

JUST FOLKS

By EDGAR A. GUEST

WINTER.
Winter has beauty all her own,
An ermine mantle around her thrown.
Her trees with countless brilliants gemmed,
Her hedges glistening, silver hemmed.
Her fields a calm and peaceful sight,
Beneath a countenance of white.

The hills a crown of glory wear,
Flashing the silence that is there.
Wherever winter's tent is pitched,
Something with beauty is enriched.

Upon the humblest twigs and stems
She pins her priceless diadems.
With dignity she sits her throne,
Sure of a beauty all her own.
(Copyright, 1922, by Edgar A. Guest)

ON THE SPUR OF THE MOMENT

By ROY K. MOULTON

MIND TESTS FOR TIRED TOILETS.
Who are the members of the present cabinet?
The person submitting the first correct list gets
the solid bone collar button.
Give the correct name of the congressman
from your district?
If 1,000,000 gallons of liquor are confiscated
every week, how long will the present supply
last?
What is the correct manner in which to ad-
dress your landlady when you meet him on the
street?
When Columbus discovered America did he
give any excuse for so doing, and if so, what
was it?
How many employers are now on their way to
the north pole, and what are they going to do
when they get there?
How long do you have to wait for an elevator
when the operator has a sweetheart who is a
stenographer on the fifteenth floor?

Former knicker, on eve of marriage, is going
to have goat glands installed. There are plenty
of goats over there, too.
Kneader "dones" is wonderful stuff, but you
have got to know how much to take.

While other people were praying for peace
and all nations were winking for it, a deputy city
clerk in New York performed 75 marriage cere-
monies in 112 minutes.

Who's Who Today

CHARLES ERNEST PELLEW.
Charles Ernest Pellew, only surviving son of
Henry Pellew, who died in Washington recently,
has announced his intention of renouncing his
American citizenship to sit in the British
House of Lords as Viscount Exmouth.
The new Viscount was educated at Colum-
bia University for many years. He retired in
1908 to devote his attention to the study of
the history of the world.
He was born in England
fifty-nine years ago.
When he was eight years
of age he came to the United States with his father.
He was graduated from the
school of mines, Columbia
University, and then taught
chemistry in the College of
Physiology and Surgery
from 1880 to 1887. He then
served as a captain of volun-
teers during the Spanish Amer-
ican war.

He joined the staff at Columbia University af-
ter his discharge in 1908. He is
president of the New York Society of Crafts-
men and is a member of the American Federa-
tion of Arts, the American Chemical society and
a fellow of the New York Academy of Sciences.
The new Viscount was a lieutenant in the
old 12th regiment of the New York National
Guard. He is a widower and has one daugh-
ter. He succeeds to the title which fell to his
father last fall. The father Pellew was grand-
son of the first Viscount of Exmouth and in-
herited the title through the death of a great-neph-
ew.

INCOME TAX FACTS

Federal Government.
NO. 13.
Business expenditures are not always business
expenses within the meaning of the income tax
law. For example, a merchant who adds to his
inventory a new warehouse at a cost of \$100,000.
This is a capital expenditure for an addition to
his assets. Capital expenditures are not deduct-
ible.
Distinction is made between expenditures for
an asset, and expenditures in connection with
an asset. If the merchant should, during the
year, spend \$500 for repairs to his warehouse,
such as painting the roof or replacing broken
windows, he may deduct such amount as a busi-
ness expense.
Medical, law or other professional books, ma-
chinery, tools, implements, or surgical instru-
ments purchased by a taxpayer for use in his
trade or profession, and which are of perma-
nent character and which are of value, are not
not allowed as a deduction. A farmer may
not deduct the cost of a threshing machine or
tractor, these being capital expenditures, but is
allowed to deduct the cost of seed, hoe, rakes, and
small tools which are used up in the course of a
year or two in farming operation.
The purchase price of an automobile, even
when used wholly for business or professional
purposes, is not deductible. The cost of gasoline,
repairs and upkeep of an automobile is deductible
if used wholly in business. If used partly for
business and partly for the pleasure or conven-
ience of the taxpayer and his family, such cost
should be apportioned accordingly.

LOOKING BACKWARD

FORTY YEARS AGO
Feb. 13, 1883.—The Grand Lodge of Knights
of Pythias met in annual session at the Janes-
ville Masonic temple this morning. There are
70 delegates present—only ten degrees below
zero this morning with indications of a thaw.
County Clerk Morgan and his wife took a sleigh-
ride to their old home in Lima this morning.

THIRTY YEARS AGO
Feb. 13, 1903.—Four carloads of coal have
been received by the street car company and
cars will soon be running again with the gas
scarcing the horse of the hayseed.—George E.
Lloyd, has taken over the press-room of the
Gazette, taking the place of John Slightham.
The Victor mandolin company is grandly
preparing to take care of all its orders and is con-
sidering doubling its capacity.

Feb. 13, 1902.—J. P. Walker, special postal
department agent, left 23 rural routes for
Rock county at 11:00 a. m. for the Edward
Stark of the American Beet Sugar company, ver-
ifies report that sugar factory will be located
here. Five hundred attended the 58th anniver-
sary of the First Congregational church which
expressed a membership of 544. Super was served
under the direction of Mrs. W. S. Jeffris and
Miss Anna Valentine read the church history.

TEN YEARS AGO
Feb. 13, 1913.—Annual meeting of the Com-
mercial club was held last night and showed that
much had to be accomplished. A. P. Lovejoy
gave a detailed president's report and Sec-
retary J. E. Lane named some of the things done
and told of plans for the future, a homecoming
and more horse races at the fair grounds be-
ing among them.

THE KINGDOM WITHIN

Neither shall they say, Lo here, or
Lo there, for the kingdom of
God is within you.—Luke 17:21.

Personal Health Service

By WILLIAM BRADY, M. D.
Noted Physician and Author

Dr. Charles J. Hastings, medical
officer of health, Toronto, Canada, in his
health bulletin "Some of the most sens-
ible rules I have ever seen published by
any health authority, for preventing
the respiratory infection, commonly
known as 'colds.' The Toronto rules
are so good that I print them here.
Laymen will find these rules worthy
of careful study and some politicians
and health commissioners may glean a
little knowledge from a careful perusal
of the Toronto way."

"Don't sit or work in an overheated
room. Sixty degrees is the ideal tem-
perature. Work in 65 to 68 degrees if you
are engaged in any active work. In-
sist on a slight current in the air of the
room you occupy and also a proper
degree of humidity."

"Don't use sprays or douches for
your nose unless under doctor's or-
ders and instructions. Much more
harm than good comes from the use
of sprays. In the first place, if a spray
is strong enough to destroy the germs,
it is more than likely to produce irri-
tation of the mucous membrane,
which will lower the resistance to in-
fection, and the result will be that
the mucus will be more susceptible to
germ attack."

"Don't sneeze or cough except into
a handkerchief or piece of cheese-
cloth and keep well beyond the range
of any one else who is coughing or
sneezing."

"Don't allow any member of the
family who has an acute cold to come
in contact with other members of
the household, nor to use the same
eating or drinking utensils, etc. Have
everybody in the family use a handker-
chief, and if one is contracted a cold, as
you would if they had scarlet fever or
diphtheria."

"Don't go to any public meetings if
you have a cold. You had better stay
at home until it is better. You will
save time by doing so and probably
save others from contracting your
cold."

"Don't stand close to any one, with
whom you are conversing if you are
reckless enough to go about when you
have a cold. The great danger of con-
tact with a person who is coughing or
sneezing is that you will catch the cold
while you have an acute cold. Re-
member, through the frequent use of
your handkerchief your hands are al-
ways contaminated with the germs of
the disease. Have you ever cat-
chized your hands and fingers with regard
to everything they have been in contact
with, and the cold has been passed on
to the person who has touched them?"

"Don't under any consideration
allow a child to play with a sick
person. The child will catch the cold
and the child will be a danger to the
family."

QUESTIONS AND ANSWERS.

In the Family.
My father, grandmother and great
grandmother died from cancer of the
stomach. Is it inherited? (C. L. D.)
Answer.—Cancer is not inher-
ited. The disease is so common that
every family must be stricken now
and then.

Can I Not Communicate.
Is there any danger of taking as-
thma from a room where an old lady
with asthma has been for some time?
The room was not fumigated. (Miss
C. L.)
Answer.—No, in any case fumiga-
tion would be of doubtful value.
Cleaning the room is a better pro-
tection. If a person who is to occupy
it after any infectious or communicable
disease.

Sun Bath.
In taking a sun bath should the
body be exposed except the head? And
how long at a time? Have been
told that a sun bath would cure cat-
arrh. (M. E.)
Answer.—Told's imagination is
highly as usual. There is no such
disease as catarrh. Sun baths should
be taken under medical direction.
Only a small part of the body is ex-
posed at first for only a few minutes
each time.

Quickest Treatment for
Syphilis.
If you will, from time to time, give
advice to your patients, the best and
quickest treatment for syphilis, I be-
lieve it will benefit thousands of suf-
ferers who have been misled by the
quackery of their own (Mrs. S. A. C.)
Answer.—A considerable share of all
cases of syphilis is innocently ac-
quired. The best and quickest treat-
ment is that which the patient's own
physician would recommend. The best
according to the requirements of the
case. Certainly there is no treatment
which will cure the disease without
some medical direction. Much harm is
done by the improper use of remedies
purporting to "rid of the blood of poi-
son."

ASK US

(Any reader can get the answer
to any question by writing the
Gazette Information Bureau, Wash-
ington, D. C. This office applies
to all questions of fact, but can-
not give advice on legal,
medical, and financial matters. It
will, however, make every effort to
locate the person or institution
responsible, or to undertake ex-
haustive research on any subject.
Write your question briefly and
briefly and enclose two cents in
stamps for return postage. Give
name and address. All replies
are sent direct to the inquirer.)

Q. Why is Florida considered an
ideal winter resort? A. C. C.
A. Added to the mildness of the
winters, this season is dry, which
forms the agreeable combination so
attractive to visitors.

Q. Is Japan interested in develop-
ing airplanes? G. B. P.
A. The Japanese budget for the
fiscal year appropriates about \$31,
000,000 for military and naval aero-
nautics. This is 75 per cent of the
appropriation made in this country
for the army and navy services.

Q. Where do we get the oil, re, ml,
of the sealer M. S. F.
A. In the eleventh century the
church fathers invented a system of
alphabet. This was applied to the
Latin hymn, the syllables of each line
of which commenced on a tone a step
higher than the foregoing one, and
from this we have derived the sys-
tem of musical notation. The hymn
was: "Ut queant laxis" (U-
later changed to do); Resonare fibris,
mi; Mira gestorum, ml; Fama tuorum,
fa; Solve polluti, sol; Labii
repleti, repleti. The notes, ml, re,
changed by some to ti.

Q. Where is the biggest cave in
the United States? A. B. H.
A. The largest cave in the world is
Wind cave near Hot Springs in the
Black Hills of South Dakota. It is
comparatively small, but the cave
have been explored, but this ex-
ploration comprises well over 100
miles of underground passage.

Q. Why are grapefruit given that
name? A. B. H.
A. The name grapefruit under
which the fruit is known commer-
cially, seems to have come from the
West Indies and owes its origin to
the fact that the fruits are often
grown in clusters, and the fruit
12" or more, much like a bunch of
grapes. The grapefruit appears to
have been introduced into Florida by
the Spaniards in the early part of the
sixteenth century.

Q. What does Walla Walla mean?
A. M. E. R.
A. The name Walla Walla is de-
rived from Indian words meaning "a
small, rapid river" or "running
water."

Q. Which will freeze quicker, hot
water or cold water? D. S.
A. The question is between the
freezing point of water that has
been heated and that which has
not been heated. The water that has
been heated will freeze more slowly
than the water that has not been
heated. This is because of the fact
that the water which has been heated
contains dissolved air which separates
on freezing and forms slushy ice,
while when water in a hot water pipe
freezes it is more apt to become in-
der-cooled and then freeze rather sud-
denly, forming compact ice free from
bubbles which is more apt to break
a pipe.

Q. When was Brooklyn bridge
opened to traffic and when was it
closed to heavy traffic? A. H. W.
A. The Brooklyn bridge was opened
to traffic May 24, 1883, and due to a
report of the board of engineers was
practically closed to heavy traffic in
November, 1922.

FOR RUSSIAN RELIEF.
Chicago—The Methodist church ap-
pointed a delegation including three
bishops to confer this month with
representatives of the Russian church
regarding its appeal for assistance in
establishing the standard of Christ
in Russia.

Abe Martin

CASH ON HAND

Washington—The names of Col.
Frank C. Marshall and Capt. Charles
L. Webster, who left Rock-
land, Cal., by airplane, Dec. 7, for
Tucson, and have not been seen
since, were dropped from the rolls of
the army.

LAWS INCUBATING IN LEGISLATURE

University Center of Attack
and Severson Law Is Im-
portant Issue.

Legislative measures that are at-
tacking the University of Wisconsin, ac-
cording to Rock county representa-
tives, are the numerous taxation re-
form bills already introduced and
other proposed bills, the university
and the wet and dry issues that are
looming up.

The dry laws are due for a rocky
ride according to present indications
for those who are wet are inclined
to be moist and it is about an even
break in the senate. It is said.
The University of Wisconsin comes
in for an issue on the proposal being
noised around to abolish the Board
of Regents and establish one general
board of education to have charge
of the entire educational system of
Wisconsin.

University in Politics
"This would be a grave mistake
for it would centralize too much
power and authority under one de-
partment and the problems of the
university, the normal schools and
others are different," it was declared.
If it is certain that new bills will be
introduced which will shift the burden
of building roads in Wisconsin from
direct taxation over to a revenue de-
rived from the motor vehicles or fuel,
two years ago a bill to tax auto val-
uation was defeated and a change
is now being favored to tax motor
vehicles on a weight basis.

Rock county representatives are ex-
pected to vote for the appropriation
to be used to continue the testing of
cattle to eradicate bovine tuberculosis.
There is some opposition to a large
appropriation in the legislature.
So far as is known the three Rock
county representatives, Assemblymen
L. B. Matheson, Wisconsin Hill, Mos-
ley, Beloit, and Senator A. E. Carey
favor an appropriation for testing.
The chief issue is the amount that
will be recommended and passed. It
is not certain that any bill will be
passed. The bill is estimated to cost
full \$1,000,000 will be passed. Whether
Rock county is tested or not this
spring depends on the total amount,
for a test of this county will mean a
considerable amount in paymaster's
check.

The Severson act will have a rough
storm to weather. There is an active
opposition to the act and other fac-
tors that seem to have saved and saved out
parts of the bill to rob it of its
strength. The most serious proposal,
according to Representative A. E.
Matheson, is to remove the search and
seizure provisions. The bill talks and
noise of everything from repeal to
modification in present dry legisla-
tion. It is understood that the ad-
ministration favors the Severson act
in its present form, but that it is
one issue, as well as taxes, on which
the Wisconsin legislature is at sea,
legislators not being fully united, but
having individual or group views.

100 WAYS To Make Money

By BILLY WINNER

If I Were a Housekeeper—
I WOULD be the best little
home manager ever! I
would show friend husband
a few things about making
money without starting capital
that would surprise him.

I would buy new furniture
with old. I would, if I employed
a maid, always have a competent
one.

I would sell a lot of things in
my house that we no longer
wanted—maybe a chair or a
table or a rug or a bed. Possi-
bly an old trunk, a used up
crockery, old paper, a worn-out
stove or even a discarded lawn
mower.

I would do these things and
many more on the thirteenth
investments imaginable, probably
figured in cents instead of dol-
lars. In other words, To Invest
in Gazette Want Ads.

We clean rugs of all kinds

AT STATE CAPITAL
A bill to permit grain elevators or
warehouses to become public ware-
houses on request of commission was
introduced by Assemblyman L. H.
Allen, Superior, who also would
increase commission salaries.

Assemblyman O. C. Olsen, Mil-
waukee, asks amendment to provide
for eight hour day and 44 hour week
for women.

A bill to make provisions of the
mother pension law less exclusive
was introduced by Olsen.

Pension system for firemen in cit-
ies of first class is asked in bill by
Assemblyman Duncan, Milwaukee.

License fee of \$5 for non-residents
of Wisconsin and \$1 for residents to
hunt deer as provided in bill by
Assemblyman Blomberg, Price coun-
ty.

A vigorous forestry policy is asked
of congress in joint resolution in-
troduced by Blomberg, in the inter-
ests of conservation.

THE BEST SERVICE

for the price of 50c is one of the lead pencils I would like
to show you. They are simple in construction, positive in
their action, and fully guaranteed.
